# Creative Connector

1.  As you read, your job is to make a connection to the story. You can connect by thinking of something in the story that relates to you (**text-to-self connection**), by thinking of how this story is like another story you've read, or how characters or plots are similar in two stories (**text-to-text connection**), or by how the story makes you think of something in the world around you (**text-to-world connection**).

2.  Write down the part of the story that you connect to and your connection. Then, illustrate it in the boxes below.

## My connection is:   TEXT-TO-TEXT    TEXT-TO-SELF    TEXT-TO-WORLD
